

INDEX	325
Pot casting, three-point fixture .....	280
Profile milling fixture for recoil cylinder liner .....	233
Quick-operating drill jig .....	173
Quick-release on milling fixture .....	103
Radial fixtures, for gear cutting operation .....	229
milling .....	224
... milling, curved slot type .....	225
milling, pivoted type .....	227
planing .....	241
... with hand- and power-operated feed .....	231
Rapid-operating drill jig .....	173
Reaming and drilling jig .....	309
Removable bushings .....	68
dimensions of .....	75
drill, table .....	76
Reversible multiple drilling jig .....	190
Ring jig, internal clamping type .....	156
Rockers on jig to facilitate turning it over .....	162
Rose chucking reamers, bushing for, table .....	77
Screw bushings .....	77
general notes .....	91
used as lcoating means .....	94
Screw tightening devices .....	118
Screws, collar-head, for jigs, table .....	116
for jig feet, table of dimensions .....	29
locating for jigs .....	28
thumb-, dimensions, table .....	116, 122
Shoes or binders, dimensions, table .....	99
Sliding points, dimensions of, table .....	99
Slip bushings, general notes .....	91
used as locating means .....	94
Slot, rough-milling, with radial fixture .....	225

Spring latch for holding jig	
cover .....	127
Star handwheels for jigs,	
table .....	121
Stationary drill bushings, table of	
dimensions .....	71
Stationary jig bushings, dimensions	
of .....	70
Stops,	
adjustable .....	92
adjustable, special	
types .....	99
Straddle-milling fixture, for milling to given	
length .....	213
Straps for clamping work in	
jigs .....	no
Studs and pins used as locating means in	
jigs .....	92
Swinging leaves for	
jigs .....	123
bs or wedges, for	
clamping .....	130
Three-point fixture for pot	
casting .....	280
